Bird photos by Jack Bartholmai

Eagle Sponsor:

“Rediscovering one’s physical, emotional and spiritual origins in the Earth is more than fun, uplifting, calming, enlightening, reassuring and awe-inspiring. It is right and true. True to life.”

From “The Healing Earth” by Philip Chard

To:

Milwaukee Audubon Society

8460 N. Fielding Road Bayside, WI 53217

Natural Landscapes Conference

REGISTRATION: 7:45 - 8:30 **Barth Hall, Todd Wehr Auditorium**
 OPENING THOUGHTS: 8:50 - 9:00 **Andrew Struck, President, Milwaukee Audubon Society**
 KEYNOTE SPEAKER: 9:00 - 10:30 **Noel Cutright, Ph.D., Senior Terrestrial Ecologist, Scientist, Emeritus, WE Energies; Past President, Wisconsin Society for Ornithology**

“Bird Migration: Following the Flyways – Facts, Fiction and the Future”

Look Skyward. Have you noticed the absolutely astounding and fascinating phenomenon happening in your area and along Lake Michigan during Fall and Spring? Who hasn't spent time watching birds flutter, glide, soar and circle as they navigate the oceans of air that encircle the Earth? Yes, it is migration time with millions of birds traveling to and from their wintering homes and breeding grounds. Come with your questions about bird migration. Dr. Cutright will discuss what we know and don't know about bird migration and also speculate about how these events might change in the future.

Dr. Noel Cutright
